ABOUT

Software Developer with 5+ years of experience in the IT industry. Proficient in designing, developing, and implementing complex object-oriented and web-based enterprise applications using Java/J2EE technologies. Demonstrated expertise in software analysis, design, development, testing, and implementation.

SKILLS

- **Technical Skills:** HTML, CSS, JavaScript, RESTful APIs, jQuery, AngularJS, XML, Ajax, Bootstrap, NodeJS, C, C++, Java, J2EE, SQL, PL/SQL, JIRA, Oracle, MySQL, IBM DB2, SQL server, MongoDB, Cassandra, Git.
- **Tools:** Struts, Spring (Spring MVC, Spring Boot, Spring Web Flow, Spring IOC, Spring AOP, Spring Security), Hibernate, JSF, Junit, Mockito, Rational Rose, maven, ANT and Jenkins.
- **Web and Cloud Skills:** SOAP, Restful, Micro Services, Amazon Web Services (AWS). (EC2, S3, RDS, EBS, Elastic Load Balancer, Auto Scaling Groups, CloudWatch, CloudTrail, Lambda, API Gateway), AWS Virtual Private Cloud (VPC), AWS Kinesis, AWS SQS, ECS

EXPERIENCE

Cognizant Technology Solutions India Private Limited.

Jan 2022 – Jan 2023

Full Stack Developer (Full-time)

- Redesigned web applications using HTML, CSS, and JavaScript, integrating them with Android applications via Java, resulting in a 35% boost in user retention and a 15% reduction in bounce rates.
- Directed a thorough UX audit, identifying and resolving critical usability issues, leading to a 25% improvement in user satisfaction.
- Collaborated extensively with Product Managers, Developers, and Marketing teams to weave UX principles into every phase of product development, driving successful project outcomes.
- Proven track record of effectively collaborating with cross-functional teams, demonstrating strong communication skills to facilitate seamless coordination and achieve project milestones.
- Recognized for exceptional teamwork abilities, fostering positive relationships with colleagues and stakeholders to drive successful project outcomes in a collaborative work environment.

Cognizant Technology Solutions India Private Limited

Sep 2021 - Jan 2022

Programmer Analyst Trainee (Internship)

- Boosted client engagement by 20% by developing dynamic web applications using AngularJS and Spring Boot.
- Leveraged AWS hosting to enhance scalability and accessibility, resulting in a 30% growth in users.
- Strengthened security by 40% with the implementation of JSON Web Tokens (JWT) for user authentication and authorization.
- Upgraded the database from SQL to NoSQL with MongoDB, accelerating application speed by 30%.

Team Tarak Trust.

Jan 2019 - Jan 2023

Software Developer (Part-time)

- **Led Development & Management:** Directed the creation of an Android app and website for a charitable trust, utilizing Java for Android and HTML/CSS/JavaScript for front-end development.
- **Facilitated Community Support:** Designed features to connect individuals in need with potential donors, including donation requests, blood donation drives, and trust event notifications.

- Database Management: Employed MySQL for effective database management, ensuring secure and reliable data storage increased application efficiency by 30%.
- Achieved High Engagement: Successfully achieved over 20,000 app downloads, indicating strong user engagement and community interest.
- Enhanced Online Presence: Built a robust online platform that strengthened the trust's visibility and fostered community engagement improved user retention by 150%.

EDUCATION

Wichita state university
M.S in Computer Science

Jan 2022 - May 2024
GPA:3.97

Amrita University
B.Tech in Computer Science

Jul 2018 - June 2022
